B. SUBSTANCE USE AND PLANNED SERVICES

1. USING THE TABLE BELOW, PLEASE INDICATE THE FOLLOWING:

A. THE NUMBER OF DAYS, IN THE PAST 30 DAYS, THAT THE CLIENT REPORTS USING A SUBSTANCE.

[DO NOT READ TO CLIENT] The client should be encouraged to list the substances on their own. If they are unsure, the list from the table below can be read to the client. Please note that not all substance use is considered harmful or illicit – it may be that a substance is prescribed by a licensed provider, or that the client uses the substance in accordance with official, national safety guidelines. In such instances, clarification from the client should be sought, but if the substance is only taken as prescribed or used on each occasion in accordance with official, national safety guidelines, then it is not considered misuse. If no use of a listed substance is reported, please enter a zero ('0') in the corresponding 'Number of Days Used' column. If the client refuses to answer the question, then select "REFUSED".

B. THE ROUTE BY WHICH THE SUBSTANCE IS USED.

[DO NOT READ TO CLIENT] Mark one route only for each substance used. But, if the client identifies more than one route, choose the corresponding route with the highest associated number value (numbers 1 – 6). Responses should capture the past 30 days of use.

During the past 30 days, how many days have you used any substance, and how do you take the substance?
